About the Investment

Investment type: Linked long-term insurance policy ('policy').

Minimum Investment Amount: R50 000 (Fifty thousand South African rand).

Investment term: Five (5) years.

Currency: South African rand (ZAR).

Investment objective(s)

On maturity, you will receive back your full investment amount, plus enhanced participation in any positive index performance, up to the maximum index performance (or cap).

Any positive index performance is also exposed to the ZAR/USD exchange rate and will be adjusted accordingly. If the ZAR depreciates against the USD over the investment term, any returns due to you will be enhanced and vice versa.

Your investment amount will always be 100% protected on maturity, irrespective of currency movements.

The index is quoted in USD. Your investment is in ZAR and any positive index performance is exposed to the ZAR/USD exchange rate over the investment term. This investment does not utilise any of your individual foreign exchange allowances.

Capital Protection

100% of South African rand investment amount on maturity, provided by Issuer.

The Index

The Index to which the Investment is linked is the Credit Suisse Global Equity Multi-Factor 10% Risk Control (ER) Index (the 'Index'). The Index fact sheet can be found on our website or ask your financial adviser to provide you with a copy.
