Moderate Regulation 28 Portfolio

(for use with retirement annuities, pension and preservations funds)

Managed by Index Solutions

31 August 2020

Each investor owns a fully segregated portfolio which is individually managed by us. The performance and TIC are calculated based on an aggregation of all the portfolios in this product. The performance and TIC thus act as a guide for each portfolio. Individual portfolios may vary due to the impact of individual investment sizes and timing.

Investment objective

To provide the investor with an opportunity to invest in a tax efficient, high growth and very long term savings vehicle with moderate equity exposure under Regulation 28.

This investment vehicle complies with Regulation 28 of the Pension Funds Act of 1956.

Investment strategy

This portfolio is part of a suite of discretionary managed personal portfolio products, which track the market by investing in a range of index based Exchange Traded Funds (ETFs). Index Solutions uses an algorithm, rather than human intuition, to select and allocate each client's portfolio of ETFs. These ETFs represent domestic money, bonds, property, equity and offshore equity. ETFs are picked using a method which selects a small set of the most efficient and most diverse ETFs. Capital is then allocated to each of these ETFs to create five risk banded portfolio products. These portfolio products provide broad, diversified, multi-asset-class, market exposure.

The risk designations below suggest approximate investment horizons. The investment horizon and risk band of this portfolio is highlighted by a purple box.

Suitability of this investment plan

This portfolio product is suitable to those who:

- Are looking for a retirement product that is tax efficient and has no income tax, capital gains tax or dividend withholding tax to eat into their retirement savings.
- Are looking for a retirement product with no penalties. You can stop or start your premiums when it suits you.

1 Total Investment Charges are the sum of TER and Transaction Costs. This includes the investment management fee, brokerage fees, settlement costs, statutory costs and VAT.

2 The performance shown is net of all The Manager's total expenses and fees for running the portfolios as well as net of all the expenses and fees of the underlying ETFs. The performance is not net of any platform or any IFA expenses and fees. Up to date security price data provided by IRESS as per date of fact sheet.

- Are looking for a forced savings vehicle.
- Are happy to invest to a medium degree in equity markets as a source of higher capital growth.
- Require a medium term savings vehicle.
- Want investment fees and charges to remain as low as possible.

Fees

Index Solutions charges a fixed annual portfolio management fee of 0.15% which is calculated daily based on the market value of the portfolio and deducted quarterly. This fee is included in the Total Investment Charge.

How to invest

Index Solutions firmly believes in the value of impartial, independent financial advice and only distributes this portfolio product through authorised financial service providers. Ask your financial advisor how our low cost retirement and savings portfolios will give you the best chance of achieving your retirement goals. They will provide advice and expertise, and will also facilitate your application and manage the paperwork.
