FUND OBJECTIVE

The investment objective of the Old Mutual Global Islamic Equity Feeder Fund is to maximise total return for investors by primarily gaining exposure to the Old Mutual Global Islamic Equity Fund. This Fund offers investors exposure to a broad spectrum of Shari'ah compliant global equity securities. The Fund shall not make investments in companies that conduct its core business in Shari'ah prohibited activities. Such activities include (but may not be limited to) conducting business in relation to alcohol, entertainment (pornography, gambling, etc) non-halaal related products, weapons and companies whose source of income is generated by interest. The Portfolio adheres to the standards of the Accounting and Auditing Organisation for Islamic Financial Institutions (AAOIFI) as interpreted by the Shari'ah Supervisory Board.

WHO IS THIS FUND FOR?

This fund suits investors seeking long term capital growth in an ethical, diversified investment through exposure to Shariah compliant developed market equities. These investors can tolerate stock market and currency volatility.

INVESTMENT MANDATE

Apart from assets in liquid form and exchange rate swaps, the fund only holds participatory interests in the Old Mutual Global Islamic Equity Fund which primarily consists of securities approved by the Shariah Supervisory Board. Only derivatives structured in a shariah compliant manner may be used for efficient portfolio management purposes.

REGULATION 28 COMPLIANCE

The fund aims to offer exposure to a specific asset class. It holds a higher allocation to both international assets and equities than what is allowed in terms of Regulation 28 of the Pension Funds Act. This fund is therefore not Regulation 28 compliant.

OLD MUTUAL GLOBAL ISLAMIC EQUITY FEEDER FUND

PORTFOLIO MANAGERS COMMENTARY

OLD MUTUAL INVESTMENT GROUP

MAAHIR JAKOET
- BCom (Hons), MBA
- 15 years of investment experience

FAWAZ FAKIER
- BCom Fin (Hons),CFA, FRM, CSAA
- 19 years of investment experience

The Middle East war and its inflation fallout dominated the quarter. Brent crude returned above US$100 a barrel, European gas stayed above €70/MWh for most of September, and Washington announced a fresh wave of tariffs. A global bond sell-off intensified through the quarter as oil, hawkish central banks and heavy government issuance collided. The US 10-year Treasury yield rose from about 4.4% at the start of the quarter to 5.27% at its peak, its highest level since 2007. Bond yields around the world rose: 10-year yields in Japan, Germany and the UK reached their highest levels since 1996, 2011 and 2007 respectively. Central bank policy turned decisively hawkish. The US Federal Reserve (Fed) held in July but hiked by 25 basis points to 3.75%-4% in September, a unanimous decision and the first hike under new Fed Chair Kevin Warsh. The Bank of Japan and the European Central Bank also hiked rates, while the Bank of England held at 3.75%.

Despite rising long-dated bond yields and hawkish central banks, global equities remained buoyant, supported by resilient earnings, and outperformed bonds, which fell as yields rose.

The fund invests only in Shari'ah-compliant equities approved by the Shari'ah Board, using a systematic process that tilts towards quality, value, and growth. Our September rebalance followed that process. We exited healthcare holdings such as Gilead and Asahi Intecc, trimmed Recruit after its strong run, and added Amdocs and Panasonic.

The fund is underweight the US, and overweight Japan and South Korea. Technology is close to benchmark weight in aggregate, though we hold overweights in selected semiconductor and networking names. We are also overweight financials, consumer staples and communication services, and underweight healthcare, industrials and energy. Our factor exposure shows higher profitability, investment quality and earnings yield than the benchmark, with slightly higher growth.

Quarter three showed why we do not depend on a single theme. Momentum unwound and semiconductor shares fell sharply, yet the fund still beat its benchmark over the quarter because returns came from a broad set of holdings. The process is systematic and highly active, so changes follow a disciplined framework rather than market sentiment. Every holding is approved by the Shari'ah Board, and there were no disinvestments for non-compliance this quarter. With oil above US$100 and bond yields rising, markets are likely to stay volatile. A diversified fund of profitable companies, with valuations more attractive than the benchmark, our Underappreciated Quality philosophy should prove to be resilient for the current environment.

OTHER INVESTMENT CONSIDERATIONS

ONGOING

	Class A	Class B1
Annual service fees (excl. VAT)	0.80%	0.45%

Please note: Class B1 is available through investment platforms such as Old Mutual Wealth.

The fee is accrued daily and paid to the management company on a monthly basis. Other charges incurred by the fund, and deducted from its portfolio, include audit, custodian and trustee charges and service fees of collective investment schemes in which the fund holds interests. These are included in the TER.

	36 Months		12 Months	
Total Expenses (Incl. Annual Service Fee) (30/06/2026)	Class A	Class B1	Class A	Class B1
Total Expense Ratio (TER) Incl. VAT	1.80%	1.40%	1.80%	1.40%
Transaction Cost (TC)	0.20%	0.20%	0.17%	0.17%
Total Investment Charge	2.00%	1.60%	1.97%	1.57%

Please note: Class B1 is available through investment platforms such as Old Mutual Wealth.

TER is a historic measure of the impact the deduction of management and operating costs has on a fund's value. A higher TER does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER, which includes the annual service fee, may not necessarily be an accurate indication of future TERs. Transaction Cost (TC) is a necessary cost in administering the fund and impacts fund returns. It should not be considered in isolation as returns may be impacted by many other factors over time including market returns, the type of fund, the investment decisions of the investment manager and the TER.

OLD MUTUAL GLOBAL ISLAMIC EQUITY FEEDER FUND

MINIMUM INVESTMENTS

LOW BALANCE CHARGE

Effective from 31 March 2025, a Prescribed Minimum Balance of R10 000 per fund per investment contract will apply. Failure to maintain the Prescribed Minimum Balance in any such fund will result in a Low Balance Charge* of R31 per month excluding VAT being incurred. However, if there is an existing monthly debit order of a minimum of R500 into each underlying fund within your investment contract, the Low Balance Charge will not apply. Please refer to the link for a full disclosure on how the Low Balance Charge will apply to your investments.

* This charge will not apply if investing via investment platforms such as Old Mutual Wealth.

INITIAL CHARGES (Excl. VAT):

Initial adviser fee will be between 0% and 3.00%.

DISCLOSURES

We aim to treat our clients fairly by giving you the information you need in as simple a way as possible, to enable you to make informed decisions about your investments.

- We believe in the value of sound advice and so recommend that you consult a financial planner before buying or selling unit trusts. You may, however, buy and sell without the help of a financial planner. If you do use a planner, we remind you that they are entitled to certain negotiable planner fees or commissions.
- Investments in unit trusts should ideally be a medium- to long-term strategy that takes cognisance of the Recommended Investment Term of each individual fund as stipulated in its Minimum Disclosure Document. A fund's or an investment strategy's ability to provide benchmark performance, or to achieve its performance target over its Recommended Investment Term on a net of fee basis may be impacted by market illiquidity, differences in fund and market pricing points, concentration risk and other local (and where applicable global) events, such as market- and political developments, macro-economic factors and healthcare risks such as Covid-19, amongst others. Your fund value may therefore go up or down and the investment capital or return on your investment is not guaranteed. How a fund has performed in the past does not necessarily indicate how it will perform in the future.
- The fund fees and costs that we charge for managing your investment are disclosed in this Minimum Disclosure Document (MDD) and in the table of fees and charges, both of which are available on our public website or from our contact centre.
- Additional information of the proposed investment, including brochures, application forms and annual or quarterly reports, can be obtained, free of charge, from Old Mutual Unit Trust Managers (RF) (Pty) Ltd, from our public website at www.oldmutualinvest.com or our contact centre on 0860 234 234.
- Our cut-off time for client instructions (e.g. buying and selling) is at 15:00 each working day for all our funds, except for our money market funds, where the cut-off is at 12:30.
- The valuation time is set at 15:00 each working day for all our funds, excluding our money market funds which is at 13:00, to determine the daily ruling price (other than at month-end when we value the Old Mutual Index Funds and Multi-Managed Fund of Funds range at 17:00 close). Daily prices are available on the public website and in the media.
- Unit trusts are traded at ruling prices, may borrow to fund client disinvestments and may engage in scrip lending. The daily ruling price is based on the current market value of the fund's assets plus income minus expenses (NAV of the portfolio) divided by the number of units on issue.
- Excessive daily withdrawals from the fund may place the fund under liquidity pressures. In such circumstances a process of ring-fencing of withdrawal instructions and/or managed payouts over time may be followed.
- This fund holds assets in foreign countries and therefore it may have risks regarding liquidity, the repatriation of funds, political and macroeconomic situations, foreign exchange, tax, settlement, and the availability of information.
- A feeder fund is a portfolio that invests in a single fund which levies its own charges. This could result in a higher fee structure for the feeder fund.
- The Net Asset Value to Net Asset Value figures are used for the performance calculations. The performance quoted is for a lump sum investment. The performance calculation includes income distributions prior to the deduction of taxes and distributions are reinvested on the ex-dividend date. Performances may differ as a result of actual initial fees, the actual investment date, the date of reinvestment and dividend withholding tax. Annualised returns are the weighted average compound growth rates over the performance period measured. Performances are in ZAR and as at 30 September 2026.
