

SMART TREND ON TOP 40 INDEX

Monthly Performance Report

November 2018

The Investment Solution is a 5 year investment, which aims to provide exposure to South African equities through the FTSE/JSE Top 40 Index (the "Index").

The Investment Solution is a Euro Medium Term Note (a type of corporate bond) issued by SG Issuer, a 100% owned subsidiary of Societe Generale (the "Issuer") and with Societe Generale acting as guarantor (the "Guarantor")

The objective of the Investment Solution is to capture growth when the Index is in a rising trend (up to a maximum return of 9.00% per month), and avoid losses by investing in a hypothetical deposit yielding 9.00% p.a. fixed interest rate, when the Index is in a falling trend.

The initially invested capital (the "Initial Capital") is protected at the Maturity Date only. This is regardless of the performance of the Index. Early redemption may result in receiving an amount less than the initial capital invested.

The return of capital and payment of any return at the Maturity Date is dependent on the ability of the Issuer to satisfy its obligations.

Societe Generale ensures a daily secondary market during the life of the product with a maximum bid-offer spread of 2%, under normal market conditions. Cases in which there is no guarantee that liquidity will be available on the secondary market, and therefore normal market conditions may not prevail, include, but are not limited to:

- The Index price is suspended or not tradable;
- There are abnormal trading situations, e.g. sudden and sharp volatility increase or lack of liquidity in the Index.

PRODUCT FACTS

Investment Solution	EMTN linked to FTSE/JSE Top 40 Index (the "Smart Trend on Top 40 Index Note")
ISIN Code	ZAE000205365
Issuer	The issuer is SG Issuer, a 100% owned subsidiary of Societe Generale
Guarantor	Societe Generale is the guarantor for securities issued by SG Issuer
Listing	Johannesburg Stock Exchange (JSE)
Capital Protection	100% capital protection at maturity only
Index	FTSE / JSE Top 40 Index (the "Index")
Currency	ZAR
Minimum Investment Amount	10,000
Issue Date	5 June 2015
Maturity Date	5 June 2020, the date that the Investment Solution matures
Investment Term	The Investment Solution has a duration of 5 years
Monthly Index Level	The closing price of the Index on the Monthly Observation Date
Index Moving Average	Average of the Monthly Index Levels over the past 4 months
Index Monthly Performance	Performance of the Index from one Monthly Observation Date to the next following Monthly Observation Date
Recorded Performance	The Recorded Performance each month is equal to either the Index Monthly Performance if the Index is in a rising trend or the Fixed Rate if the Index is in a falling trend.
Monthly Observation Date	Monthly observations: every 5 th of the month or the next available business day if the 17 th falls during a weekend or holiday (starting 4 months before the Issue Date and ending on 29/05/2020)
Fixed Rate	9.00% p.a.

THIS DOCUMENT IS INTENDED ONLY FOR CLIENTS WHO HAVE ALREADY INVESTED IN THE PRODUCT. IT CANNOT BE COMMUNICATED TO ANY THIRD PARTY AND THE ELEMENTS IT CONTAINS (IN PARTICULAR PERFORMANCE GRAPHS) ARE INTENDED ONLY TO INFORM THOSE WHO HAVE ALREADY INVESTED IN THE PRODUCT. THIS DOCUMENT IN NO WAY CONSTITUTES AN OFFER FROM SOCIETE GENERALE TO BUY OR SELL THE PRODUCT HEREIN DESCRIBED.

HOW DOES THE INVESTMENT SOLUTION WORK?

The Investment Solution aims to provide exposure to the Index only during rising trends, on a monthly basis.

If in a falling trend, the Investment Solution will offer no exposure to the Index and instead will accumulate a 9.00% p.a. Fixed Rate during the respective month.

As a result, during a prolonged bearish period (i.e. a period of sustained decline in the Index over a few months), the Investment Solution is able to avoid performance erosion, as it will no longer be exposed to the Index.

HOW IS THE SMART TREND PERFORMANCE CALCULATED?

In order to determine if the Index is in a rising or falling trend, the following calculations will be made every month:

- The Monthly Index Level will be recorded every month.
- The Index Moving Average is calculated as the average of the 4 previously recorded Monthly Index Levels (one value for each month over the past 4 months).

If the current Monthly Index Level is above the Index Moving Average, the **Index is considered in a rising trend**.

If the current Monthly Index Level is below the Index Moving Average, the **Index is considered in a falling trend**.

The Investment Solution is exposed to the Index performance only during the months when the Index is in a rising trend.

If the Index is in a rising trend during a specific month, the Recorded Performance over the next month will be equal to the Index Monthly Performance up to a maximum return of 9% per month.

If the Index is in a falling trend during a specific month, the Recorded Performance over the next month will be equal to the Fixed Rate of 9.00% per annum adjusted by the actual number of days in the respective month.

WHAT HAPPENS AT THE MATURITY DATE?

At the Maturity Date, you will receive back your Initial Capital plus the Smart Trend Performance, if positive.

The Smart Trend Performance is calculated as the compounded performance of the 60 Recorded Monthly Performances (one for each month).

Smart Trend Performance = (1 + Recorded Performance in month 1) x (1 + Recorded Performance in month 2) x ... x (1 + Recorded Performance in month 60) - 1

What if the Smart Trend Performance is negative?

The Investment Solution is designed to capture trends (rising or falling) in the Index.

If there are no such trends (i.e. the Index has a volatile performance, going up and down each month) the Recorded Performances may be negative which could in turn generate a negative Smart Trend Performance (please see page 6 for illustration of negative Recorded Performances).

In such case, the Investment Solution may not generate a return at the Maturity Date.

INDEX PERFORMANCE STATISTICS

The table below shows the Monthly Index Levels from the first Monthly Observation Date (5 March 2015) to the 5th of November 2018.

The Rising or Falling Trend is determined by comparing the Monthly Index Level with the Index Moving Average over the previous 4 months.

- If the Index is in a Rising Trend, the Recorded Performance over the next month will be equal to the Index Monthly Performance up to a maximum return of 9% per month.
- If the Index is in a falling trend during a specific month, the Recorded Performance over the next month will be equal to the Fixed Rate of 9.00% per annum adjusted by the actual number of days in the respective month.

The Index is not sponsored, approved or sold by Societe Generale. Societe Generale shall not assume any responsibility in this respect.

FIGURES RELATING TO PAST PERFORMANCES REFER TO PAST PERIODS AND ARE NOT A RELIABLE INDICATOR OF FUTURE RESULTS. THIS ALSO APPLIES TO HISTORICAL MARKET DATA.

INDEX EVOLUTION

Source: Societe Generale & Bloomberg, November 7th, 2018. The accuracy, completeness or relevance of the information which has been drawn from external sources is not guaranteed although it is drawn from sources reasonably believed to be reliable. Subject to any applicable law, neither Societe Generale nor the Issuer shall assume any liability in this respect.

RISKS RELATED TO THE INVESTMENT SOLUTION

Investors should refer to the prospectus and final terms before any investment in the product. Societe Generale recommends that investors read carefully the “risk factors” section of the product’s prospectus before any investment in the product. The prospectus is available on the Societe Generale website <http://prospectus.socgen.com> and/or may be obtained free of charge upon request from Societe Generale at the address stated on page 12 or from iTransact at the following address: 15 Philips Street Randburg 2194 | PO Box 4769 Randburg South Africa 2125.

Credit risk: By acquiring the Investment Solution, investors take an ultimate credit risk on Societe Generale as the guarantor of the Issuer. Thus in the event of Societe Generale’s insolvency investors may lose part or the whole of the invested amount.

Capital protection at maturity only and early redemption risk: The product includes a full capital protection. Such protection is only valid at the Maturity Date. The value of the product may, during its lifetime, be lower than the amount of the capital protection. As a consequence, the investor may lose part or all of the invested amount if the product is sold before the Maturity Date.

Inflation risk: inflation may occur over the duration of your investment and if the returns, if any, on your Investment are lower than the rate of inflation this will reduce what you could buy in the future.

Market risk: The product may at any time be subject to significant price movement, which may in certain cases lead to the loss of a significant amount if the Investment Solution is redeemed early.

Volatility risk: The strategy rationale is based on capturing trends in the underlying Index. If there are no such trends, i.e. the Index has a volatile performance, going up and down each month, the strategy might not perform.

Capped Returns: If in a rising trend the Index has a monthly performance higher than 9.00%, the investor will not be able to benefit of the full performance, as this is capped at 9.00%.

Liquidity risk: Certain exceptional market circumstances may have a negative effect on the liquidity of the product, and even render the product entirely illiquid. This may make it impossible to sell the product early and may result in the partial or total loss of the invested amount if early redeemed.

Adjustment or substitution – Early redemption of the product: In order to take into account the consequences on the product of certain extraordinary events which could affect the underlying instrument(s) of the product, the product’s documentation provides for (i) adjustment or substitution mechanisms and, in certain cases, (ii) the early redemption of the product. This may result in losses on the product.

This list of risks is not exhaustive. Any evaluation of investment products linked to the Index should be made after seeking advice from professional legal, tax, accounting, investor's own financial advisor and any other advisors. Prospective investors in these such products should refer to the specific product and underlying summary as well as the risk factors prepared in relation to the specific product before making any investment decision.

IMPORTANT INFORMATION

Prior to investing in the product, investors should seek independent financial, tax, accounting and legal advice.

General selling restrictions: It is each investor's responsibility to ascertain that it is authorised to subscribe, or invest into, this product.

Information on commissions, remunerations paid to, or received from third parties: If, under applicable laws and regulations, any person (the "Interested Party") is required to disclose to prospective investors in the product any commission or remuneration that Societe Generale pays to, or receives from, such Interested Party in respect of the product, the Interested Party shall be solely responsible for compliance with such laws and regulations.

Commercial nature of the document: This document is of a commercial and not of a regulatory nature.

No offer to contract: This document does not constitute an offer, or an invitation to make an offer, from Societe Generale to purchase or sell the product referred to herein.

Availability of the documentation for the product: The legal documentation relating to this product may be obtained from Societe Generale at the address stated in this document, upon request.

Warning regarding the Index: The FTSE/JSE Top 40 Index is not sponsored, approved or sold by Societe Generale. Societe Generale shall not assume any responsibility in this respect.

Information on data and/or figures drawn from external sources: The accuracy, completeness or relevance of the information which has been drawn from external sources is not guaranteed although it is drawn from sources reasonably believed to be reliable. Subject to any applicable law, Societe Generale shall not assume any liability in this respect.

Market information: The market information displayed in this document is based on data at a given moment and may change from time to time.

This document is for information purposes only. It is not to be construed as investment or other advice or guidance in any form whatsoever.

The content of this document is intended purely to provide investors with information about Societe Generale, and its offered products and services. It should be used for personal and/or educational purposes only. This document is provided in good faith and the content is not subject to any express or implied warranties of any kind.

Societe Generale hereby authorises the use of the content of this document for marketing purposes if the content is used for information purposes only. No representation, warranty or claim is made or will be construed from the content of this document to the effect that any person benefiting from a product will, or is likely to realise profits, income, earnings or returns similar to those illustrated in the document.

Each investor must consult their own financial adviser who must be an authorised financial services provider to advise the investor as to the suitability of the products and funds for the investor's personal investment needs.

This document and any of its supplements are not intended to be and do not constitute a solicitation for investment from members of the public in terms of the Collective Investment Schemes Control Act, 2002 in South Africa (as amended ("CISCA")) and does not constitute an offer to the public as contemplated in section 99 of the Companies Act, 2008 in South Africa (as amended). None of the foreign collective investment schemes mentioned in this document have been approved for marketing as contemplated in section 65 of CISCA.

Authorisation: Societe Generale is a French credit institution (bank) that is authorised and supervised by the European Central Bank (ECB) and the Autorité de Contrôle Prudentiel et de Résolution (ACPR) (the French Prudential Control and Resolution Authority) and regulated by the Autorité des marchés financiers (the French financial markets regulator) (AMF).

This document is issued in the U.K. by the London Branch of Societe Generale. Societe Generale London Branch is authorised by the ECB, the ACPR and the Prudential Regulation Authority (PRA) and subject to limited regulation by the Financial Conduct Authority (FCA) and the PRA. Details about the extent of our authorisation, supervision and regulation by the above mentioned authorities are available from us on request.
